Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Discussed matters as outlined in the Applicant Initiated Interview Request Form (see attached). Applicant argued with respect to the prior art that Pinckney does not teach the limitations of claim 64. Clarification was made with respect to what is meant by a "protocol independent caching subsystem" by Mr. Becker and how the storage system of Pinckney differs. Mr. Becker also pointed out that the examiner failed to consider claim 77 in its entirety in the last office action. Mr. Ailes and Mr. Caldwell advised Mr. Becker to file his specific arguments in writing in the response to the last office action. No agreement with respect the claims was reached.
